

MedPack

White Cross Pharmacy is the leading independent pharmacy provider to long term care facilities and residential patients throughout Rhode Island and southeastern Massachusetts.

Our Multidose medications packaging system the MedPack aims to simplify the administration of pharmaceuticals for the patient or caregiver. With the MedPack all of the patient's medications are organized into individual pouches that are labeled with the medication name and the time to be taken. MedPack is the clear choice to streamline medication management.

- Enhances patient safety and adherence.
- MedPack is filled and delivered when due. Eliminating the need for staff or family to constantly call or fax in refill requests.
- <u>**Travel friendly**</u>. Ideal for patients who are on-the-go. The pouches are easily separated and contain all necessary prescription information
- **<u>No additional charge</u>** to the patient for filling or delivery.

MedPack pouches are easily separated and properly labeled. The pouch system is the smart and simple solution to medication management. Please give us a call today to learn more about the system or to get started!
